

DATA EAST presents another
unique game with some **HOT** earnings!

Climb the building, put out the fire and rescue the people as you try to reach the top of the burning building. The player has only water bombs and a strong pair of hands to use in ascending to the top. Falling bricks, cars, glass and other obstacles must be avoided, or it's a long fall to the street.

Then, once you reach the top, you must make your way back down!

This innovative 2 joystick game gives the player a new challenge in game play. The player must climb and shoot his

water cannon with a pair of 4-way joysticks.

The unique game play is simple enough for novice players, and intensely challenging for skillful players. FIRETRAP will give your locations some HOT collections.

Don't have Samanthra (fear of exceptionally high collections) — get FIRETRAP from your local DATA EAST distributor today, or contact DATA EAST USA, INC., 470 Needles Drive, San Jose, California 95128 (408) 286-7074.
